MEMORANDUM FOR: Director of Political Analysis
FROM: Director of Central Intelligence
SUBJECT: Current Situation in Malta

I was in a discussion about Malta the other day. It reminded me that I don't have much feel for what is going on in Malta these days. Could you have someone pull together a very short memo for me emphasizing the Malta-Libya ties; the status of a European subsidy to Malta; Mintoff's political status, including when he comes up for reelection; and any other points of significance. ☐
